

How is your  
**vaginal hygiene?**

**You are a diamond.**

Shine from the inside out. Call and order Nirena®  
and do not settle for a conventional soap.

**Nirena** \$29.95 PDC:1127

When it comes to intimate feminine care, there are only a few options. You can use soap or regular body wash which overtime leads to discomfort and increased frequency of infections. A slightly better option is to use a cleanser such as Summers Eve or Monistat and while they are designed for this purpose these products use low cost detergents and do little or nothing to protect the delicate vaginal environment. We developed Nirena because we believe women want to treat their bodies well, especially when it comes to their intimate parts.

Nirena is a breakthrough that addresses all variables of feminine intimate care by using clinically proven compounds that have proven antibacterial, anticandidal, antifungal, and anti-inflammatory properties. Nirena is ultra-gentle and formulated with totally natural compounds, using it is like going to the spa everyday. By using Nirena regularly you insure optimal vaginal health, comfort, and complete confidence. Most importantly, Nirena dramatically reduces the chances of having a vaginal infection.

High quality intimate care is the foundation of health and beauty. So why cut corners when you can have the best? To discover how Nirena can change your life, call us at 888-644-9769 to order.

**For perfect feminine hygiene, call 888.644.9769 now.**
