“WORLD’S MOST EFFECTIVE TOPICAL HAIR LOSS TREATMENT”

*Clinically proven to work better and faster than Rogaine® **

Dr. Animov in collaboration with DS Laboratories has created the world’s most effective topical hair loss treatment. Our patients see extraordinary results and are many are able to re-grow normally thick and healthy looking hair.

Spectral DNC® is a new breakthrough medication that gives new hope to those who suffer from hair loss and baldness. Spectral DNC® incorporates Aminexil, the only molecule other than Minoxidil that has been shown effective in clinical studies to re-grow hair. Other active ingredients include research grade Minoxidil 5%, Retinol, copper peptides, and a vitamin and mineral complex. The active ingredients are delivered in a technologically advanced vehicle, in tiny micro-spheres called nanosomes.

A major advantage of Spectral DNC® is that the active ingredients are encapsulated in nanosomes. Nanosomes are micro-spheres that are 200 times smaller than human cells and penetrate into the deepest layers of the skin and release the active ingredients gradually over a 15 hour period. This technology dramatically boosts the effectiveness of the active ingredients since they are absorbed much deeper in the skin. Spectral DNC® is faster and more effective than Rogaine® and Spectral DNC® works both on the vertex of the head and the frontal hair line. Spectral DNC® gives the best chance of growing normally thick and healthy hair and works on people who previously did not respond to Rogaine® treatment.

Spectral DNC® must be used twice a day, every day for at least 3 months to achieve significant results. Like any other topical hair loss treatment, the sooner you start the better the results are.

Contact Dr. Animov today for a consultation and to begin your treatment with Spectral DNC®.

IMPORTANT SAFETY INFORMATION:

Spectral DNC contains strong vasodilator compounds increasing the absorption of Minoxidil and some people may experience a higher sensitivity to Minoxidil side effects. You should not use Spectral DNC if you have low blood pressure or are taking blood pressure lowering medications. People with heart failure or significant coronary heart disease should avoid Spectral DNC® because of these side effects.

The most common side effects are redness and irritation of the scalp.

Pregnancy: Spectral DNC® should not be used in pregnancy and by nursing women.

IF YOU EXPERIENCE RAPID HEART BEAT, DIZZINESS OR SHORTNESS OF BREATH DISCONTINUE THE USE OF Spectral DNC®.

Rogaine® is a registered trademark of Pfizer, Inc.
